Dear Sir

Greetings from Tata Consultancy Services!

We are happy to inform you that Tata Consultancy Services Limited (TCS) has selected your esteemed institute for the **TCS-100 Best** student award, for the academic year 2011-2012. The award (comprising cash prize, gold medal and certificate) is given at functions held at individual institutes or at TCS offices.

#### **About the initiative**

**TCS-100 Best** is one of the many initiatives from TCS, to enhance students' attention towards academics through healthy competition. Awards are presented to best students of 100 high-ranking engineering institutes across India. TCS, as part of its Academic Interface Programme (AIP) has been giving these awards over several years.

#### **Award criteria**

Students from any branch of engineering, pursuing the final semester may be considered for this award. In addition to academic excellence, which is considered as the primary criterion, participation in institute level activities, membership in technical forums, general conduct and so on may also be considered for finalizing the winner. The nomination by the institute is considered final. In case of a tie, TCS would not get involved in decision-making process. It is important to note that the award nomination is NOT limited to those who have received offers from TCS.

#### **Award distribution**

TCS would like to distribute the award on a convenient date during the second half of Feb 2012. Request you to finalise the nomination from your institute before **10th Feb 2012**.

With regards,
