

**LIST OF RESEARCH PAPERS OF DR. GURUPRASAD SAMANTA**

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>1</b>	Analysis of a predator-prey model for exploited fish populations with schooling behavior	Debasis Manna, Alakes Maiti	Applied Mathematics and Computation	35-48	Vol. 317 (2018)
<b>2</b>	New approach for stability and bifurcation analysis on predator-prey harvesting model for interval biological parameters with time delays	D.Pal, G.S. Mahapatra	Computational and Applied Mathematics		2017, DOI 10.1007/s40314-017-0504-3
<b>3</b>	Degree of prey refuges: Control the competition among prey and foraging ability of predator	Debaldev Jana , Aniket Banerjee	Chaos, Solitons and Fractals	350-362	Vol. 104 (2017)
<b>4</b>	Analysis of a hand-foot-mouth disease model, International Journal of Biomathematics	Swarnali Sharma	International Journal of Biomathematics	1-47	Vol. 10(2), (2017) DOI: 10.1142/S1793524517500164
<b>5</b>	Dynamical behaviour of age-selective harvesting of a prey-predator system	Swarnali Sharma	International Journal of Dynamics and Control		2017, DOI 10.1007/s40435-017-0337-3
<b>6</b>	Analysis of a harvested predator-prey system with schooling behaviour	Debasis Manna , Alakes Maiti	International Journal of Dynamics and Control		2017, DOI 10.1007/s40435-017-0321-y
<b>7</b>	Parameter uncertainty in biomathematical model described by one-prey two-predator system with mutualism	D.Pal, G.S. Mahapatra	International Journal of Biomathematics	1-36	Vol. 10(6); (2017) DOI : 10.1142/S1793524517500826
<b>8</b>	Selective harvesting of two competing fish species in the presence of toxicity with time delay	D. Pal, G.S.Mahapatra	Applied Mathematics and Computation	74-93	Vol. 313 (2017)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>9</b>	A Michaelis–Menten type food chain model with strong Allee effect on the prey	Debasis Manna, Alakes Maiti	Applied Mathematics and Computation	390-409	Vol. 311 (2017)
<b>10</b>	A Three-Layer Supply Chain EPQ Model for Price- and Stock-Dependent Stochastic Demand with Imperfect Item Under Rework	Shilpi Pal, G. S. Mahapatra	Journal of Uncertainty Analysis and Applications		DOI 10.1186/s40467-016-0050-3, 2016
<b>11</b>	On the stability and Hopf-bifurcation of a multidelayed competitive population system affected by toxic substances with imprecise biological parameters	D. Jana, P. Dolai	Modeling Earth Systems and Environment	1-16	DOI 10.1007/s40808-016-0156-0 , 2016
<b>12</b>	Analysis of the Dynamics of a Tumor-Immune System with Chemotherapy and Immunotherapy and Quadratic Optimal Control	Swarnali Sharma	Differential Equations and Dynamical Systems	149–171,	Vol. 24(2) (2016)
<b>13</b>	Stability and bionomic analysis of fuzzy prey-predator harvesting model in presence of toxicity: A dynamic approach	D. Pal, G. S. Mahapatra	Bulletin of Mathematical Biology	1493–1519	Vol. 78(7) (2016) DOI: 10.1007/s11538-016-0192-y
<b>14</b>	Dynamics of a food chain model with herd behaviour of the prey	S. P. Bera , A. Maiti	Modeling Earth Systems and Environment	1-9	DOI 10.1007/s40808-016-0189-4 , (2016)
<b>15</b>	Effects of fuzzy harvesting on logistic growth models for uncertain ecological parameter	D.Pal, G.S. Mahapatra	Journal of Interdisciplinary Mathematics	433-451	Vol. 19(3); DOI : 10.1080/09720502.2014.914277, (2016)
<b>16</b>	Deterministic and stochastic analysis of a prey–predator model with herd behaviour in both	Alakes Maiti, Prosenjit Sen	SYSTEMS SCIENCE & CONTROL ENGINEERING	259-269	Vol. 4 (2016)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>17</b>	A delayed epidemic model of diseases through droplet infection and direct contact with saturation incidence and pulse vaccination	Prosenjit Sen & Alakes Maiti	SYSTEMS SCIENCE & CONTROL ENGINEERING	320-333	Vol. 4 ( 2016)
<b>18</b>	A Predator-Prey System with Herd Behaviour and Strong Allee Effect	Alakes Maiti, Prosenjit Sen, Debasis Manna	Nonlinear Dynamics and Systems Theory	86-101	Vol. 16 (1)( 2016)
<b>19</b>	Ecological dynamics of age selective harvesting of fish population: Maximum sustainable yield and its control strategy	Debaldev Jana , Rashmi Agrawal, Ranjit Kumar Upadhyay	Chaos, Solitons and Fractals	111-122	Vol. 93 (2016)
<b>20</b>	Stochastic Analysis of a Prey-Predator Model with Herd Behavior of Prey	S.P.Bera, A.Maiti	Nonlinear Analysis: Modelling and Control	345-361	Vol.21, No.3 (2016), <a href="http://dx.doi.org/10.15388/NA.2016.3.4">http://dx.doi.org/10.15388/NA.2016.3.4</a>
<b>21</b>	A nonlinear irreversible investment model with von-bertalanffy law of growth	Debasis Manna	International Journal of Mathematics and Statistics	67-90	Vol. 17, Issue 1 (2016)
<b>22</b>	Analysis Mathematical analysis of a Chlamydia epidemic model with pulse vaccination strategy,		Acta Biotheoretica	1-21	Vol. 63 (2015)
<b>23</b>	A delayed hand-foot-mouth disease model with pulse vaccination strategy		Computational and Applied Mathematics	1131-1152	Vol. 34, Issue 3 (2015)
<b>24</b>	Stability and bionomic analysis of fuzzy parameter based prey-predator harvesting model using UFM	D. Pal, G. S. Mahapatra	Nonlinear Dynamics	1939-1955	Vol. 79 (2015)
<b>25</b>	A Leslie-Gower predator-prey model with disease in prey incorporating a prey refuge	Swarnali Sharma	Chaos, Solitons & Fractals	69-84	Vol. 70 (2015)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>26</b>	A Prey-predator Model with Infection in Both Prey and Predator	S.P.Bera, A.Maiti	Filomat	1753–1767	Vol. 29, No. 8, (2015)
<b>27</b>	Stability analysis and optimal control of an epidemic model with vaccination	Swarnali Sharma	International Journal of Bi-mathematics	28 pages	Vol. 8, No. 3(2015) 1550030 DOI: 10.1142/S1793524515500308.
<b>28</b>	Analysis of a predator-prey population model	Swarnali Sharma	International Journal of Ecological Economics & Statistics	18-44	Vol.36, No.4 (2015)
<b>29</b>	A Delay Dynamic Model for HIV Infected Immune Response	S.P.Bera, A.Maiti	J. Appl. Math. & Informatics	559 –578	Vol. 33, No. 5 – 6 (2015)
<b>30</b>	Analysis of a mathematical model of periodically pulsed chemotherapy treatment	Ricardo Gómez Aíza and Swarnali Sharma	International Journal of Dynamics and Control	1-16	DOI: 10.1007/s40435-015-0204-z (2015)
<b>31</b>	Analysis of the Dynamics of a Tumor-Immune System with Chemotherapy and Immunotherapy and Quadratic Optimal Control	Swarnali Sharma	Differential Equations and Dynamical Systems	1-23	DOI 10.1007/s12591-015-0250-1 (2015)
<b>32</b>	Modelling herd behavior of prey: analysis of a prey-predator model	S.P.Bera, A.Maiti	World J. of Modelling and Simulation	3–14	Vol. 11, No. 1 (2015)
<b>33</b>	A production inventory model for deteriorating item with ramp type demand allowing inflation and shortages under fuzziness	Shilpi Pal, G.S.Mahapatra	Economic Modelling	334–345	Vol. 46 (2015)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>34</b>	Analysis of a drinking epidemic model	Swarnali Sharma	International Journal of Dynamics and Control	288-305	Vol. 3, Issue 3 (2015)
<b>35</b>	Analysis of a delayed epidemic model of diseases through droplet infection and direct contact with pulse vaccination	Ricardo Gómez Afza	International Journal of Dynamics and Control	275-287	Vol. 3, Issue 3 (2015)
<b>36</b>	A ratio-dependent predator-prey model with Allee effect and disease in prey	Swarnali Sharma	J. Appl. Math. Computing	345-364	Vol. 47(2015)
<b>37</b>	Analysis of a two prey one predator system with disease in the first prey population	Swarnali Sharma	International Journal of Dynamics and Control	210-224	Vol. 3, Issue 3 (2015)
<b>38</b>	Bifurcation analysis of predator-prey model with time delay and harvesting efforts using interval parameter	D.Pal, G.S. Mahapatra	International Journal of Dynamics and Control	199-209	Vol. 3, Issue 3 (2015)
<b>39</b>	Optimal harvesting of a two species competition model with imprecise biological parameters	Swarnali Sharma	Nonlinear Dynamics	1101-1119	Vol. 77 (2014)
<b>40</b>	Analysis of a delayed Chlamydia epidemic model with pulse vaccination	Swarnali Sharma	Applied Mathematics and Computation	555-569	Vol. 230 (2014)
<b>41</b>	An EPQ model of ramp type demand with Weibull deterioration under inflation and finite horizon in crisp and fuzzy environment	Shilpi Pal, G.S. Mahapatra	International Journal of Production Economics	159-166	Vol. 156 (2014)
<b>42</b>	Analysis of a delayed epidemic model with pulse vaccination		Chaos, Solitons & Fractals	74-85	Vol. 66 (2014)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>43</b>	Analysis of a Chlamydia Epidemic Model	Swarnali Sharma	Journal of Biological Systems	1-32	Vol. 22, No. 4 (2014)
<b>44</b>	Modelos dinamicos de poblaciones simples y de sistemas depredador-presa (in spanish)	Ricardo Gómez Afza	Miscelanea Matematica	77-110.	Vol.58 (2014)
<b>45</b>	Role of multiple delays in ratio-dependent prey-predator system with prey harvesting under stochastic environment	Debaldev Jana	Neural, Parallel, and Scientific Computations	205-222	Vol.22 (2014)
<b>46</b>	Bioeconomic modeling of a single species fishery with Von Bertalanffy law of growth	Debasis Manna	Electronic Journal of Applied Statistical Analysis	117-131	Vol. 7, Issue 1 (2014)
<b>47</b>	Analysis of a delayed hand-foot-mouth disease epidemic model with pulse vaccination		Systems Science & Control Engineering: An Open Access Journal	61-73	Vol. 2 (2014)
<b>48</b>	An inventory model of price and stock dependent demand rate with deterioration under inflation and delay in payment	Shilpi Pal, G.S. Mahapatra	Int J Syst Assur Eng Management	591-601	Vol. 5, Issue 4 (2014)
<b>49</b>	Dynamical Behaviour of an HIV/AIDS Epidemic Model	Swarnali Sharma	Differential Equations and Dynamical Systems	369-395	Vol. 22, Issue 4 (2014)
<b>50</b>	Dynamical Behaviour of a Two Prey and One Predator System	Swarnali Sharma	Differential Equations and Dynamical Systems	125-145	Vol. 22, Issue 2 (2014)
<b>51</b>	Optimal harvesting of prey-predator system with interval biological parameters: A bioeconomic model	D.Pal, G.S.Mahapatra	Mathematical Biosciences	181-187	Vol. 241 (2013)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>52</b>	A Ratio-dependent Eco-epidemiological Model Incorporating a Prey Refuge	A.K.Pal	Universal Journal of Applied Mathematics	86-100	Vol.1, No.2 (2013)
<b>53</b>	EPQ model with fuzzy coefficient of objective and constraint via parametric geometric programming	G.S. Mahapatra, T.K. Mandal	International J. Operational Research	436-448	Vol.17, No.4 (2013)
<b>54</b>	Dynamical Behaviour of a Tumor-Immune System with Chemotherapy and Optimal Control	Swarnali Sharma	Journal of Nonlinear Dynamics	13 pages	Vol. 2013, Article ID 608598, <a href="http://dx.doi.org/10.1155/2013/608598">http://dx.doi.org/10.1155/2013/608598</a> (2013)
<b>55</b>	Mathematical analysis of a single-species population model in a polluted environment with discrete time delays	Swarnali Sharma	Journal of Mathematics	18 pages	Volume 2013, Article ID 574213 <a href="http://dx.doi.org/10.1155/2013/574213">http://dx.doi.org/10.1155/2013/574213</a> (2013)
<b>56</b>	Dynamical Behaviour of a Drinking Epidemic Model	Swarnali Sharma	Journal of Applied Mathematics and Informatics	747-767	Vol.31, No.5-6 (2013)
<b>57</b>	Analysis of a fractional-order competition model with common inhibitory effect	Swarnali Sharma	International Journal of Ecological Economics & Statistics	68-86	Vol.31, No.4 (2013)
<b>58</b>	Quota Harvesting Model for a Single Species Population Under Fuzziness	D.Pal, G.S.Mahapatra	International J. Mathematical Sciences	33-46	Vol. 12, No. 1-2 (2013)
<b>59</b>	Analysis of an epidemic model with non-linear incidence and vaccination	Swarnali Sharma	International Journal of Ecological Economics & Statistics	104-129	Vol.28, No.1 (2013)
<b>60</b>	Drinking as an epidemic : a mathematical model with dynamic behavior	Swarnali Sharma	Journal of Applied Mathematics and Informatics	1-25	Vol.31, No.1-2 (2013)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>61</b>	Dynamic Behaviour for Heroin Epidemic Models	Swarnali Sharma	Heroin: Pharmacology, Effect and Abuse Prevention (SCOPUS)	51-92	Nova Science Publishers, New York (2012)
<b>62</b>	Analysis of nonautonomous two species system in a polluted environment		Mathematica Slovaca	567-586	Vol.62, No.3(2012)
<b>63</b>	An EPQ Model with Imprecise Space Constraint Based on Intuitionistic Fuzzy Optimization Technique	G.S.Mahapatra, T.K.Mandal	J. of Mult.-Valued Logic & Soft Computing	409-423	Vol.19, No.5-6 (2012)
<b>64</b>	A proportional harvesting dynamical model with fuzzy intrinsic growth rate and harvesting quantity	D.Pal, G.S.Mahapatra	Pacific-Asian Journal of Mathematics	199-213	Vol. 6, No. 2 (2012)
<b>65</b>	Fuzzy parametric geometric programming with application in fuzzy EPQ model under flexibility and reliability consideration	G.S. Mahapatra, T.K. Mandal	Journal of Information and Computing Science	223-234	Vol. 7, No. 3 (2012)
<b>66</b>	Optimal Inventory Policies for Imperfect Inventory with Price Dependent Stochastic Demand and Partial Backlogged Shortages	Jhuma Bhowmick	Yugoslav Journal of Operational Research.	199-223	Vol. 22 (2012)
<b>67</b>	Permanence and extinction for a nonautonomous SVIR epidemic model with distributed time delay		World Journal of Modelling and Simulation	3-18	Vol.8, No.1(2012)
<b>68</b>	Permanence and extinction of a nonautonomous HIV/AIDS epidemic model with distributed time delay		Nonlinear Analysis: Real World Applications	1163-1177	Vol. 12, No. 2 (2011)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>69</b>	Analysis of a nonautonomous dynamical model of diseases through droplet infection and direct contact		Applied Mathematics and Computation	5870-5888	Vol. 217, No. 12 (2011)
<b>70</b>	Inventory model with two rates of production for deteriorating items with permissibly delay in payments	Ajanta Roy	Int. J. Syst. Sci.	1375-1386	Vol. 42, Issue 8 (2011)
<b>71</b>	A Production Inventory Model with Fuzzy Coefficients Using Parametric Geometric Programming Approach	G.S.Mahapatra, T.K.Mandal	International Journal of Machine Learning and Cybernetics	99-105	Vol. 2, No. 2 (2011)
<b>72</b>	Dynamical behaviour for a nonautonomous smoking dynamical model with distributed time delay		Journal of Applied Mathematics and Informatics	721-741	Vol.29, No.3-4 (2011)
<b>73</b>	A Deterministic inventory Model of Deteriorating Items with Two Rates of Production, Shortages and Variable Production Cycle	Jhuma Bhowmick	ISRN Applied Mathematics	16 pages	Vol. 2011, Article ID 657464, doi: 10.5402/2011/657464 (2011)
<b>74</b>	Dynamic behaviour for a nonautonomous heroin epidemic model with time delay		Journal of Applied Mathematics and Computing	161-178	Vol.35 (2011)
<b>75</b>	A stochastic two species competition model: non-equilibrium fluctuation and stability		International Journal of Stochastic Analysis	7 pages	Vol. 2011, Article ID 489386, <a href="http://dx.doi.org/10.1155/2011/489386">http://dx.doi.org/10.1155/2011/489386</a> (2011)
<b>76</b>	Analysis of a nonautonomous predator-prey model incorporating a prey refuge and time delay	D. N. Garain	Journal of Applied Mathematics and Informatics	955-967	Vol.29, No.3-4 (2011)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>77</b>	Analysis of a nonautonomous HIV/AIDS model		Mathematical Modelling of Natural Phenomena	70-95	Vol.5, No.6 (2010)
<b>78</b>	Permanence and extinction of a nonautonomous stage-structured epidemic model with distributed time delay		Journal of Biological Systems	377-398	Vol.18, No.2 (2010)
<b>79</b>	Analysis of a delay nonautonomous predator-prey system with disease in the prey		Nonlinear Analysis : Modeling and Control	97-108	Vol.15, No.1 (2010)
<b>80</b>	Rich dynamics of an SIR epidemic model	S.Pathak, A.Maiti	Nonlinear Analysis: Modeling and Control	71-81	Vol.15, No.1 (2010)
<b>81</b>	A single species population in a polluted environment	A.K. Pal	International Journal of Biomathematics	1-18	Vol.3, No.2 (2010)
<b>82</b>	Analysis of a nonautonomous HIV/AIDS epidemic model with distributed time delay		Mathematical Modelling and Analysis	327-347	Vol.15, No.3 (2010)
<b>83</b>	A two-species competitive system under the influence of toxic substances		Applied Mathematics and Computation	291-299	Vol. 216 (2010)
<b>84</b>	Dynamics of a single species population in a polluted environment	A.K.Pal	J. Appl. Math. & Informatics	1185-1202	Vol.28, No.5-6 (2010)
<b>85</b>	Permanence and extinction for a nonautonomous avian-human influenza epidemic model with distributed time delay		Mathematical and Computer Modelling	1794-1811	Vol. 52 (2010)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>86</b>	Global dynamics of a nonautonomous SIRC model for influenza A with distributed time delay		Differential Equations and Dynamical Systems	341-362	Vol. 18, Issue 4 (2010)
<b>87</b>	A Deterministic Inventory System with Weibull Distribution Deterioration and Ramp Type Demand Rate	Jhuma Bhowmick	Electronic Journal of Applied Statistical Analysis,	92-114	Vol. 3, Issue 2 (2010)
<b>88</b>	Dynamics of a single species population in a polluted environment	A.K.Pal	Journal of Applied Mathematics and Informatics	1185-1202	Vol.28, No.5-6 (2010)
<b>89</b>	Determining the factors that do and do not influence the demand for less polluting modes of passengers transport: a case study of Kolkata, India	Madhumati Dutta	World Transport Policy & Practice	7-34	Vol.16, No.3 (2010)
<b>90</b>	Analysis of a nonautonomous delayed predator-prey system with a stage structure for the predator in a polluted environment		International Journal of Mathematics and Mathematical Sciences	18 pages	Vol. 2010 Article ID 891812, <a href="http://dx.doi.org/10.1155/2010/891812">http://dx.doi.org/10.1155/2010/891812</a> (2010)
<b>91</b>	Stability in randomly fluctuating versus deterministic environments of the Gomati model of interacting species		AMSE (D), Advances in Modelling: Computer Science and Statistics	89-100	Vol.15, No. 1-2 (2010)
<b>92</b>	A nonlinear predator-prey system in deterministic and stochastic environment	A.Maiti, A.K. Pal	International Journal of Ecological Economics & Statistics	14-25	Vol.16, No. W10, Winter (2010)
<b>93</b>	Effect of time-delay on a ratio-dependent food chain model	Alakes Maiti, Bibek Patra	Nonlinear Analysis : Modelling and Control	199-216	Vol.14 (2009)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>94</b>	Rich Dynamics of a Food Chain Model with Hassell-Varely Type Functional Responses	Sweta Pathak, A.Maiti	Applied Mathematics and Computation	303-317	Vol. 208(2009)
<b>95</b>	An order-level inventory model for items with weibull distribution deterioration, shortages and stock-dependent time varying demand	Jhuma Bhowmick	A.M.S.E. Periodicals (D) Production Engineering and Management	64-77	Vol. 30, No. 2 (2009)
<b>96</b>	Fuzzy continuous review inventory model without backorder for deteriorating items	Ajanta Roy	Electronic Journal of Applied Statistical Analysis	58-66	Vol.1 (2009)
<b>97</b>	Effect of time-delay on a food chain model	A.Maiti, A.K. Pal	Applied Mathematics and Computation	189-203	Vol.200, No. 1 (2008)
<b>98</b>	A Prey-Predator model with Microparasite Infection in the Predator	A.Maiti, S.P.Bera	J. Biol. System	219-239	Vol. 16, No.2 (2008)
<b>99</b>	Usefulness of Bio-Control of Pests in Tea:A Mathematical Model	A.Maiti, A.K. Pal	Mathematical Modelling of Natural Phenomena	96-113	Vol.3, No.4 (2008)
<b>100</b>	Bionomic Exploitation of a Ratio-Dependent Predator-Prey System	Alakes Maiti, Bibek Patra	Int. J. Math. Edu. Sci. Technol	1061-1076	Vol. 39 (2008)
<b>101</b>	Deterministic and Stochastic Analysis of a Ratio-Dependent Predator-Prey System with Delay	A.Maiti, M.M.Jana	Nonlinear Analysis : Modelling and Control	383-398	Vol.12, No.3 (2007)
<b>102</b>	Persistence and stability in a ratio-dependent predator-prey system with delay and harvesting	Alakes Maiti, Bibek Patra	Natural Resource Modelling	575-600	Vol.20, No.4 (2007)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
<b>103</b>	A Deterministic Inventory System with Deterioration and Stock Dependent Time Varying Demand Rate	Nilanjana Gangopadhyaya	Tamsui Oxford Journal of Management Sciences	35-48	Vol. 23, No. 4 (2007)
<b>104</b>	A Continuous Deterministic Inventory System For Deteriorating Items with Inventory-Level-Dependent Time Varying Demand Rate	Jhuma Bhowmick	Tamsui Oxford Journal of Mathematical Sciences	173-184	Vol. 23, No. 2 (2007)
<b>105</b>	Persistence and stability of a food chain model with mixed selection of functional responses	Alakes Maiti, Bibek Patra	Nonlinear Analysis: Modelling and Control	171-185	Vol.11, No. 2(2006)
<b>106</b>	Rich dynamics of a time-delayed food chain model	Alakes Maiti	Journal of Biological Systems	387- 412	Vol.14, No. 3(2006)
<b>107</b>	Deterministic and stochastic analysis of a ratio-dependent prey-predator system	Alakes Maiti	Int. J. Syst. Sci.	817-826	Vol. 37 (2006)
<b>108</b>	An Inventory Model of Deteriorating Items with time-Varying demand and shortages	Ajanta Roy	AMSE (D)	1-18	Vol. 27, No. 1 (2006)
<b>109</b>	Sterile insect release method as a control measure of insect pests : A mathematical model	Alakes Maiti, Bibek Patra	Journal of Applied Mathematics and Computing	71-86	Vol. 22, No. 3 (2006)
<b>110</b>	Complex dynamics of a food chain model with mixed selection of functional responses	Alakes Maiti	Bull. Cal. Math. Soc.	393-412.	Vol. 97 (2005)
<b>111</b>	Deterministic and stochastic analysis of a prey-dependent predator-prey system	Alakes Maiti	Int. J. Math. Educ. Sci. Technol.	65-83	Vol. 36 (2005)
<b>112</b>	An EOQ model for deteriorating items with stock-dependent time varying demand.	Ajanta Roy	Tamsui Oxford Journal of Management Sciences.	37-46	Vol. 20 (2004)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
113	A deterministic inventory model of deteriorating items with two rates of production and shortages	Ajanta Roy	Tamsui Oxford Journal of Mathematical Sciences	205-218	Vol. 20 (2004)
114	A production inventory model with deteriorating items and shortages	Ajanta Roy	Yugoslav Journal of Operational Research	219-230	Vol. 14 (2004)

115	Dynamical model of a single-species system in a polluted environment	Alakes Maiti	Journal of Applied Mathematics and Computing	231-242	Vol. 10 (2004)
116	Stochastic analysis of a demographic model of urbanization		J. Natural and Physical Sciences	1-10	Vol. 18 (2004)
117	Stochastic Gomatam model of interacting species : non-equilibrium fluctuation and stability	Alakes Maiti	Systems Analysis Modelling Simulation	683-692	Vol. 43, Issue 6 (2003)
118	Bionomic modelling of a three-species fishery with switching effect	Debasis Manna, Alakes Maiti	Journal of Applied Mathematics and Computing	219-231	Vol. 12 (2003)
119	Stability of a social group	Krishnendu Sen	J. Natural and Physical Sciences	45-54	Vol. 15 (2001).
120	Influence of environmental noises on Gomatam model of interacting species		Ecological Modelling	283-291	Vol. 91, Issues 1-3 (1996)
121	The effects of random fluctuating environment on interacting species with time delay		Int. J. Math. Edu. Sci. Technol.	13-21	Vol. 27 (1996)

<b>No.</b>	<b>Title of Paper(s)</b>	<b>Name of the Co-Author(s)</b>	<b>Name of the Journal(s)</b>	<b>Page(s)</b>	<b>Volume &amp; Year</b>
122	Stability and evolution of a predator-prey model near equilibrium		Bull. Cal. Math. Soc.	375-384	Vol. 87 (1995)
123	Stochastic analysis of a prey-predator system		Int. J. Math. Edu. Sci. Technol.	797-803	Vol. 25 (1994)
124	Logistic growth under coloured noise		Bull. Math. de la Soc. Sci. Math. de Roumanie	115-122	Vol. 37 (1993)
125	Stability of resource consumer system		Bull. Cal. Math. Soc.	457-462	Vol. 85 (1993)
126	Influence of environmental noise in Gompertzian growth model		J. Math. Phy. Sci.	503-511	Vol. 26 (1992)
127	Stochastic differential equation modelling of ecosystem	C. G. Chakrabarti	Math. Edu.	36-40	Vol. XXVI (1992)
128	Complex stochastic averaging approach to a two-state predator system		Int. J. Math. Edu. Sci. Technol.	739-744	Vol. 23 (1992)
129	Stochastic analysis of a noisy oscillator		Applied Mathematics Letters	61-63	Vol. 4 (1991)
130	Stochastic behaviour of a damped Volterra-Lotka system with time-dependent parameters	C.G.Chakrabarti	J. Math. Phy. Sci.	351-359	Vol. 25 (1991)
131	Fluctuation and stability in a diffusive predator-prey system		Applied Mathematics Letters	115-118	Vol. 3 (1990)
132	On stability and fluctuation in Gompertzian and Logistic growth models	C. G. Chakrabarti	Applied Mathematics Letters	119-121	Vol. 3 (1990)
133	Fluctuation and stability in a diffusive resource-consumer system		Bull. Cal. Math. Soc.	182-185	Vol. 82 (1990)
134	Damped Volterra-Lotka system in a rapidly fluctuating environment		Pure and Appl. Mathematika Sciences	89-95	Vol. XXXII (1990)

135	Stochastically perturbed Hopf Bifurcation in an extended Volterra-Lotka System	C. G. Chakrabarti	Applied Mathematics Letters	63-166	Vol. 2 (1989)
136	Kinetics of non-linear reaction-diffusion process	C. G. Chakrabarti, R. N. Talapatra	Bull. Cal. Math. Soc.	528-533	Vol. 81 (1989)

### **Books authored by DR. GURUPRASAD SAMANTA:**

- I. A Text Book of Partial Differential Equations (ISBN: 978-81-224-4352-3 C-17-03-10313), published by New Age International (P) Limited, New Delhi. (2017)
- II. A Text Book of Engineering Mathematics-IV (ISBN: 978-81-224-3554-2), published by New Age International (P) Limited, New Delhi.
- III. A Text Book of Engineering Mathematics-III (ISBN: 978-81-224-4044-7 C-16-07-9546), published by New Age International (P) Limited, New Delhi. (2017)
- IV. A Text Book of Engineering Mathematics-II (ISBN: 978-81-224-3219-0, 978-81-224-3959-5), published by New Age International (P) Limited, New Delhi. (2016)
- V. A Text Book of Engineering Mathematics-I (ISBN: 978-81-224-3803-1), published by New Age International (P) Limited, New Delhi. (2015)
- VI. A Text Book of Discrete Mathematics (ISBN: 978-81-224-3680-8), published by New Age International (P) Limited, New Delhi.
- VII. A Text Book of Operations Research (ISBN: 978-93-84107-08-6), published by Knowledge Kit Publications, Kolkata (2015)

- VIII.  $\Delta$  Text Book of Mathematics WBSCTE Semester 1 (ISBN: 978-81-92671-14-7), published by Knowledge Kit Publications, Kolkata.
- IX. Diploma Engineering Mathematics WBSCTE Semester 2 (ISBN: 978-81-92671-18-5), published by Knowledge Kit Publications, Kolkata.
